October 5, 2021

Dear LISVH Family Member:

As we complete day 564 in the fight against the novel Coronavirus (COVID-19), we want to take this opportunity to give you the latest update on our current situation. At this time, we have one resident who is positive for the COVID-19 virus. This resident and his roommate are properly quarantined, cohorted, and both are resting comfortably. Currently, we are very pleased to report that we have no employees positive for the virus.

The COVID-19 numbers for our region are stable with a slight downward trend. The COVID-19 positivity rate for Suffolk County was 3.6% yesterday. The 7-day rolling average was also 3.6%. As of today, we had 170 COVID-19 admissions at various hospitals around Suffolk County. Of these COVID-19 hospitalized patients, 30 are in ICU's and 18 are on ventilators. These numbers suggest that we should continue to take proper precautions when in the community.

We continue to prepare for the distribution of the Pfizer booster shot to all eligible residents. During the week a DocuSign consent, will be sent to you to complete. Please be on the lookout for this document. Any questions should be referred to Dr. Anshu Singh (631-444-8608) or Elizabeth Murray, RN (631-444-8582).

Outdoor visits continue to be available at this time, with the exception of nursing unit 2A (which will reopen on October 9, 2021). Currently, indoor visitation is scheduled to resume on October 9, 2021. Thank you for utilizing SignUp Genius to schedule your future visits, and always check our website prior to arriving. Lastly, we remain here for you - our families. Please do not hesitate to reach out to us.

Sincerely,

Fred S. Sganga, FACHE
Executive Director
