June 15, 2021

Dear LISVH Family Member:

Thank you again for taking the time to read the latest information concerning the Long Island State Veterans Home. As you know, we are committed to updating our families on a timely basis. We are pleased to report that the Home is stable, as none of our residents have the novel Coronavirus (COVID-19) at this time. We do have one employee who has tested positive for the virus back on June 3, 2021. This employee remains asymptomatic and continues to quarantine at home. Quarantine completion for this employee will be on Thursday, June 17, 2021.

The employee who tested positive was assigned to nursing units 1B and 3C prior to contracting the virus. Out of an abundance of caution, we will be testing all residents on these two nursing units for a second time. As always, we will share any significant results with you.

We all appreciate the low positivity rates in Suffolk County, but as a skilled nursing facility, we must adhere to federal and state regulations as they apply to us. We continue to wear facemasks, we practice social distancing and encourage hand washing as well. We are also encouraging all unvaccinated staff members to consider the vaccine. Staying ahead of any future outbreak remains our top priority. We appreciate all of your help in this battle as well. Please know that we are here for all our families. Call us if we can be of further assistance.

Sincerely,

Fred S. Sganga, FACHE  
Executive Director  
631-444-8606

Jonathan Spier, MHA, LNHA  
Deputy Executive Director  
631-444-8615
